Building our pipeline

University students

Our research programme provides an opportunity for students to gain practical experience in the field of research. The programme is designed to provide students with a range of opportunities to develop their skills and knowledge in a variety of research areas.

Our research programme provides an opportunity for students to gain practical experience in the field of research. The programme is designed to provide students with a range of opportunities to develop their skills and knowledge in a variety of research areas.

Our research programme provides an opportunity for students to gain practical experience in the field of research. The programme is designed to provide students with a range of opportunities to develop their skills and knowledge in a variety of research areas.

With continued support and interest from students, GPEX looks forward to working with new interns in 2018 to deliver further research

Our research programme provides an opportunity for students to gain practical experience in the field of research. The programme is designed to provide students with a range of opportunities to develop their skills and knowledge in a variety of research areas.
